Welcome to this edition of MUBS Alumni Graduation Magazine. The magazine provides a glimpse into what has been taking place at Makerere University

Business School (MUBS) since the previous graduation and also updates on the current graduation.

Congratulation upon your accomplishment. You have joined the MUBS Alumni Fraternity. As an Alumni of MUBS, you are definitely our ambassadors. Yes, you have been our ambassadors since you walked into the gates of MUBS and now you have scaled to the level of a 'Knowledgeable Ambassador', Congratulations once again.

As you are seated contemplating the journey and sighing to this wonderful accomplishment, do not forget to thank those that have walked this journey with you but not forgetting GOD for HE has enabled you and them to reach this far.

As MUBS, we request that you keep holding our flag high and we pray that all the knowledge you have attained

guide you in the rest of your journey and when called upon, you will be able to come back and lend a hand where need be.

To our parents and guardians, you are our Alumni too. Thank you for choosing and standing by us. You are cherished and forever will be. Thank you for this great sacrifice.

To the determined and enduring staff of MUBS, Gracias upon tutoring this fraternity.

"When it seems like others are outperforming you on the path to success, keep in mind that everyone blooms at their own pace. Stay focused."

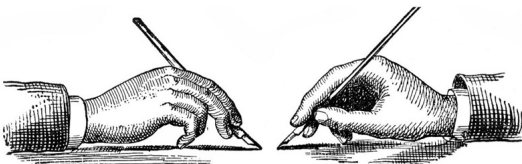

To the Government, we appreciate your support towards the services we render to the public. We request for more support to be able to produce more good breeds to serve this great nation in different capacities. MUBS has produced 'exceptional' citizens for example our very own Chairman, Lt.

Col. Rtd. Dr. Bright Rwamirama, Rt. Hon. Anitah Among, Hon. Justice Flavian Zeija, PSST Ramathan Ggoobi to mention but a few that are serving in different Leadership and Management positions.

The day's 'VIPs', the journey has just started, aim for the stars.

MUBS Alumni Executive

Lt. Col. Rtd. Dr. Bright Rwamirama (Ph.D); Chairman MUBS Alumni Association

He is the State Minister for Animal Industry. He is an Alma mater of *Makerere University*; Certificate in Management, Bachelor of Business Administration, Master of Business Administration. *British Junior Staff College*; Junior Command and Staff Course, *Naval Postgraduate School*; Resource Management Course. He is an Accountant, Politician and a retired Army Officer.

Dr. Rwamirama is the Minister of State for Animal Industry. He also serves as the elected Member of Parliament

representing "Isingiro County North", Isingiro District.

From 1978 until 1983, Dr. Rwamirama worked as a Banking Officer at Uganda Commercial Bank, the institution that later became Stanbic Bank Uganda. In 1983, he joined the National Resistance Army (NRA), in the Uganda Bush War to dislodge Milton Obote from power. He was appointed Officer in Charge of Pay in the NRA in 1986, serving in that capacity until 1989. In 1989, he was promoted to Director of Finance, in the NRA, which was renamed Uganda People's Defense Force (UPDF), in 1995. He served in that capacity at the UPDF headquarters, until 1997. He continued to serve as one of the Senior Staff Officers at UPDF Headquarters, until 2001. In 2001, he retired from the Armed Forces at the rank of lieutenant colonel. He joined politics, contesting for the parliamentary seat of "Isingiro County North", in Isingiro District. He won that seat and was re-elected to the same position in 2006 and 2011. He was appointed Minister of State for Animal Industry in June 2006.

Lt. Col. Rtd. Dr. Rwamirama is married. He belongs to the National Resistance Movement political party. His interests include conflict resolution, community development and watching sports events.

**“Today you have join the MUBS Alumni family.
May you be fruitful in your endeavors”**

About the External Members

Rtd. Col. Fred Mwesigye is a member of the MUBS Alumni Association. He is an Alma mater of Makerere University who pursued a Bachelor of Business Administration and a Master of Peace and Conflict Studies. He is a Ugandan diplomat, retired military officer and politician. He serves as the High Commissioner of Uganda to Tanzania.

He previously served as the elected parliamentary representative for Nyabushozi County in the 10th Parliament of Uganda (2016 - 2021), on the National Resistance Movement political party ticket.

Before that, he was a serving officer in the Uganda Peoples Defense Forces (UPDF) and in the National Resistance Army (NRA) that preceded it. He is a member of the original 41 combatants with 27 guns who started the NRA in February 1981.

Mr. Emmanuel Dombo is a member of the MUBS Alumni Association. He served as Guild President Makerere University for 1991/92 which opened many other leadership positions for him that include but not limited to; Commissioner of Parliament, former Member of Parliament and held several positions in various parliamentary committees for a period of over twenty years. He was also Treasurer of CPA- Uganda.

Emmanuel holds a Masters Degree in Business Administration (MBA), Bachelor of Commerce Degree Majoring in Management from Makerere University and Certificate in Health Management by ESSAMI among other relevant leadership certificates.

Hajji Juma K. Walusimbi is a member of the MUBS Alumni Association. He holds a Bachelor of Business Administration and Master of Business Administration majoring in Accounts and Finance from Makerere University. He served the Central Bank for nearly 37 years in different capacities such as Director of Communications and Spokesperson between 2003 and 2010.

On November 18, 2023, he was awarded a Life Achievement Award from the Public Relations Association of Uganda (PRAU) due to his dedicated service to the Public Relations and Communications fraternity of Uganda. Hajji Walusimbi now serves as the Board Director of the Microfinance Support Centre. He also served as the Board Director of FINCA and a President of PRAU.

Mr. Godfrey Byekwaso is a member of the MUBS Alumni Association. He is a highly skilled finance professional and banker with key components in financial analysis and management.

Currently, he is the Deputy Managing Director of Centenary Bank Malawi. He joined the banking sector in 2004 as a Finance and Administration Manager at FINCA and in 2009, he was appointed as the Senior Regional Finance Manager for FINCA International till his appointment as General Manager, Finance at Centenary Bank in 2012 till his recent appointment to Malawi.

Mr. Byekwaso is also a partner of DATIVA & Associates Certified Public Accountants and also a member of the League of East African Directors (LEAD). He holds a Bachelor of Commerce (Accounting) and a Master of Business Administration (Accounting and Finance) both from Makerere University and a CEO Apprenticeship Programme of Strathmore Business School.

*This milestone
is just a
steppingstone for
more successes
to come!
Congratulations*

Be able to seize new opportunities and nurture ideas

To our graduands:

Congratulations for completing your academic programmes. This graduation ceremony is a beacon of triumph and demonstrates that you have accorded sufficient attention to your studies. This is the same attention you should put to life after today.

We join you in the celebration of your success. We are confident that you have acquired relevant knowledge to enable you survive outside school. If you have been attending to various academic and non-academic events at the School, I am sure you have the right tools of analysis to survive outside our gates. During your stay at campus, you must have experienced some challenges which I believe have enabled you pick good lessons for managing life.

As citizens with much needed knowledge in business and management, you should be able to seize new opportunities and nurture ideas that will address pressing business challenges. Do something, you have the potential. Your family and your community should at some time appreciate why they sent you to MUBS.

You are now educated. However, never let your education stand in your way for learning. You should always leave room for learning. Without wisdom, it may be difficult for you to make sense of the world and yourself. I appreciate you for having been disciplined students. Keep that line because discipline will play a big role to bridge your current goals and accomplishment.

As you join the world of work, you will note that the new battlefields of life require you to have more knowledge; MUBS will be humbled to further enable you.

To me as the team leader at MUBS, it has been a privilege to enable you grow and to be part of your history. We do appreciate the parents, guardians, sponsors and

all staff of MUBS for the support extended to our students. Your contribution is immeasurable. We treasure you.

My prayer is that you determine to remain alive, free from all that may endanger your lives and that God's blessings and God's grace follow you.

To the Class of 2024

To the Class of 2024, on behalf of the MUBS Alumni Office, we CONGRATULATE you on one of your greatest achievements to date!

Best of luck in your future endeavors! Graduates, I know this past years have not been easy, but I opportunity to congratulations and wish you well in your targets! Your hard work and persistence should be much-admired, and you should be very proud of yourself for reaching this massive accomplishment.

You have accomplished some amazing things at MUBS, and I know you will bring your innovation and drive for everyone else to see! YOU DID IT! Your determination, hard work, and strength of character have taken you to this moment, ready to use your training and knowledge to make the world a better place for the rest of us.

You have succeeded in completing your degrees in a very unusual environment, and now you are ready to go out there and face whatever the world has to offer. Remember that those of us who supported you as students are still very much rooting for you to find success in your future. Thank you for being

such amazing students and being so incredible. I wish you the greatest success, continued growth, continued insight, and to find every path possible for you to reach your goals and potential. I wish you growth both as a person and as a professional.

*Mary Mirembe

“Be bold, be fearless, and watch your best self blossom while you accomplish your dreams.”

A chat with MUBS' Best Overall Student: MAK 74th Congregation (AY 2022/2023)

Who is Kevin Atukunda?

Kevin Atukunda is a Ugandan from Bushenyi District, Ishaka Municipality, Nyakabirizi Division, Remigorora Cell. I was born on February 9, 2001 to Mr. Erias Muramuzi and Ms. Allen Teshemerirwe.

Kindly let us know about your academic journey. Right from Primary to date.

I started School as early as 2004 from Kierere Primary School in Bushenyi and then later joined Parental Care Primary School, Bushenyi from 2010 to 2013 where I

completed

my PLE with a first grade of 11 Aggregate. In 2013, I was glad to join Mbarara High School also known as Chaapa for my Secondary level. I finished my O' level at Mbarara High School from 2013-2017 and I attained a first grade of 22 Aggregates. I was given another opportunity at Mbarara High School to proceed with A' level from 2018 to 2019. I offered HED (History, Entrepreneurship and Divinity)/ICT. UNEB results were officially released when I had 16 points that is A in History, A in Entrepreneurship and E in Divinity. I was not satisfied with these results and I decided to apply for remarking of my Divinity paper with the support of the school. I was remarked and finally Divinity results altered from E to A. UNEB processed a new payslip which indicated that I scored maximum 20 points at A' level. Before my remarking results were out, I had applied for Law pre-entry exams at Makerere University which I successfully passed with 52% and I was admitted on private to do Bachelors of Laws. Public University Joint Admission Board (PUJAB) which admits students on government had already issued and published a list of students on government. I decided to appeal to PUJAB for a National Merit consideration and I was admitted on government to do Bachelors in International Business (BIB) at MUBS. I had two options either to join

Makerere University and do Law on private or join MUBS and do BIB on Government sponsorship. I decided to join MUBS for Bachelors in International Business in 2020. I completed all my six semesters with a first class and with a final CGPA of 4.84 and managed to become the best student of MUBS of the 74th graduation.

How was it raising up as a child to where you are now?

I was raised by both my father and mother who shaped my childhood plus my teachers in primary and other relatives who would give relevant advice where need be. I grew up from a humble and God fearing family. During my younger age from Nursery up to P.7, I never liked going to school and I was forced by my father every morning to go to school and sometimes he would drop me to school early morning. After joining Mbarara High School, I found the environment good for my success and I liked the school up to date. I associated with students from different family backgrounds and rubbed shoulders with brilliant students. I then adapted the character of self drive in Senior Two. I started deciding actions on my own and sometimes seek advice from the older people who are relevant in different fields. My parents also gave me freedom to always make my own decisions with out dictating on me since Senior three, but I would take the initiative to consult from them most of the times. Furthermore, my parents supported me with everything I would ask from them which was a reason for my success.

When I joined campus, the only impediment aspect was studying with ladies because I had been in a single school for my secondary level. To mitigate this challenge, I decided to focus on my target which was to get a first class and be retained as a lecturer at MUBS.

How has life been since your last exam?

Lifetime after exiting the gates of the University is one of the most challenging part to most graduates. So after campus I stayed within Kampala without a job but I had to survive by all means. I tried to utilize the skills and knowledge I had acquired all long. I decided to start discussing and teaching some of the MUBS students who would give me commissions and some of the students connected me to their parents and parents paid me to continuously tutor their sons and daughters. Furthermore, I was also doing research and helping individuals who would approach and consult me on how to handle different research chapters. I applied to different institutions for employment opportunities and succeeded with Airtel Uganda Limited where I was given an opportunity as a Graduate Management Trainee 2024.

What are those things that helped and guided you towards excellence?

1. *Putting God first.* As a christian I used to attend church service on Sunday from St. James Chapel MUBS.
2. *Listening.* I appreciate listening whether some one is communicating sense or not but I used to carefully listen to everyone and then make my own resolution.

3. *Setting goals.* I set goals in what ever I do and I always work hard to achieve the goals I have set. For example, my goal was to get a first class at campus.
4. *Commitment.* I am always committed to my tasks and what I am doing and I only missed two lectures while at campus when I was sick. But I fully attended all lectures and

person not only in academic but also in manual work related aspects like doing agricultural activities.

7. *Confidence.* This is key to me. Believing in my self that I can actually achieve and be outstanding. It was my confidence to remark UNEB results. I always believe that any result can be hypothetical and when your are not satisfied with the out come you can refute the results.

8. *Seeking for advice.* I appreciate the fact that everyone is unique and relevant and I would seek advice from some of the individuals that have made it in life.

9. *Doing research.* Before I take actions, I had to first make research and get more information to help me make relevant and

did all course works.

informed decisions.

5. *Helping and Sharing.* I used to discuss for students and almost every day I would conduct a discussion of 30 students for two hours. Some students would ask different questions via WhatsApp and I would respond positively even when I did not know them provided the questions were academic related. Furthermore, in my third year I started recording audios during my discussions which were shared to my classmates who never attended my discussions.
6. *Hard work.* I am a hard working

10. *Being open minded.* I was open to learn from each and every one regardless of the course some one was doing and I would welcome ideas from everyone.

11. *Self drive.* I adopted this when I was at Mbarara High School and I believe I can get the best out of myself. I always believed every answer is right provided you justify and provide strong defense to your answer.

12. *Integrity.* I like to do the right thing even when no one is seeing me or guiding me. I am a principled person

who usually does the right thing at it's right time. From Monday to Friday it was time for class and weekend was the time to go out and rub shoulders with friends.

13. *Keep records.* It was good for me to always note down what I thought was critical to my success during lectures.

What are your aspirations now that you have completed your first degree.

I am hoping to excel in Masters, PhD and other academic levels. I also hope to make a good family and support my children to attain their dreams. Furthermore, I will welcome all the opportunities which will position me to contribute to my country; Uganda in development and transformation.

Message to continuing students that wish to scale the academic height

Continuing students should share knowledge with their colleagues through discussions, attend all lectures and carefully listen to their lecturers. Furthermore, they should utilize their resources at hand such as phones and laptops to make research and study on-line on YouTube and other platforms. Students should also embrace reading ahead, respect time and do the right thing at it's right time. Ultimately, they should respect their parents be loyal to them and seek

advice from their mentors.

Message to your parents

I take this opportunity to appreciate and thank my parents for bringing me into this world. I really appreciate the financial support, advice they have rendered to me in my academic journey. I also extend appreciation to all parents who have taken their sons and daughters to school. You will all be rewarded in Jesus's name.

Any other thing you wish to say in regards to academics.

The education sector is the field which has no limit and it creates value to the elite. Education shapes the discipline and behaviour of many individuals across the globe and it helps us to interact with people from all corners of the world. And with education, we can transform economically, socially and politically.

A'Class Graduands to Dine with Potential Employers

The MUBS team led by Prof. Moses Muhwezi (in the middle putting on a black suit) and the MAK Convocation team led by Mr. George Turyamureeba (in the middle putting on a blue suit) after their engagement at MUBS

47 A' class Bachelors and Masters students to dine with different potential employers at the Convocation Luncheon today on February 1, 2024. The Luncheon that is organized by the MAK Convocation is to host 60 students from MUBS on their graduation day today. The 60 students include the 13 PhD graduands each with their two parents and 47 students from Masters and Undergraduate inclusive of those from the MUBS Regional Campuses each with their two parents as well.

In his communication, the Chairman MAK Convocation, Mr. George Turyamureeba made this proposal during their visit at MUBS on December 14, 2023.

The graduates will also have a chance

of meeting the top potential employers in the country and they will also be awarded Certificates of Excellence by the Convocation.

Prof. Moses Muhwezi the MUBS Ag. Principal welcomed the idea and appreciated Convocation for such a thoughtful gesture towards the appreciation of students and also seeing to it that they earn placement in their fields of study upon graduation.

This meeting was a follow up on the benchmark meeting the MUBS Alumni Office had at MAK Convocation to help them see where to improve when it comes to serving Alumni and the two institutions. This benchmark was on November 28, 2023 at MAK Convocation Offices.

A'Class Graduands AY 2022/2023

Below is a list of students that have scaled the highest and graduated with a first class degree on Undergraduate level from different academic programmes at the 74th MAK Congregation today, February 1, 2024 at MAK Freedom Square.

PhD Graduates AY 2022/2023

A PhD candidate must submit a project, thesis, or dissertation often consisting of a body of original academic research, which is in principle worthy of publication in a peer-reviewed journal. In many countries, a candidate must defend this work before a panel of expert examiners appointed by the university. Below are the graduates that attained their highest academic level of study by fulfilling the necessary requirements for this attainment and today, their PhDs will be conferred by the Chancellor of Makerere University Prof. Ezra Suruma.

Congratulations upon this great achievement

For the past years, Makerere University Business School has scooped a seat on the table of “Academic Protagonists” in the Humanities discipline. Scrolling down from 2011 to date, MUBS has constantly led in Humanities where two of its giants were from its Regional Campuses which were put in place to extend University Education to the different regions respectively. The Campuses that have so far produced Best Overall students include; Arua Regional Campus with Rashid Taban in 2016 and Mbarara Regional Campus with Jordan Owomugisha in 2023. Below are stories of encouragement and achievement from some of the protagonists and also a pictorial of those that sit on this table.

Determination yields big wins: 64th Best Overall in Humanities Mr. Frank Kabuye

Frank Kabuye is a Lecturer in the Department of Auditing and Taxation at Makerere University Business School (MUBS). He got employed at MUBS in 2014 after his exceptional performance at the Bachelor’s degree, where he was the best overall student in Humanities at Makerere University for the 64th graduation.

In the like manner, Frank scored twenty-five (25) Uganda Advanced Certificate of Education (UACE) exams at Kagadi People’s Secondary School, which made him one of the best UACE students in the country.

Right after his Bachelor’s degree in Business

Administration (BBA), Frank undertook a Master of Science in Accounting and Finance (MSAF). Like before, he again emerged as the best overall student for the Masters programmes at MUBS in 2016. In 2017, Frank enrolled for the Certified Professional Accounting (CPA) course, and he continued with excellent performance, where he was the top student in several papers by completion in 2019.

Using the vast knowledge he has accumulated in Accounting and Finance, Frank

Mr. Frank Kabuye

Auditing and
Taxation

Access Frank's publications at: <https://scholar.google.com/citations?user=IESQCzYAAAAJ&hl=en>

has published over eleven peer-reviewed research papers in fraud management, auditing, Islamic banking, economics and energy with top-notch publishers in the world like Emerald Insight and Taylor and Francis.

Similarly, he has reviewed several research articles for the International Journal of Auditing, Journal of Islamic Accounting and Business Research, Sustainability Accounting, Management and Policy Journal, and Cogent Business & Management.

In September 2023, Frank won the 2023 International Society of Pitching Research for Responsible Science (InSPiR2eS) Award at the 12th Annual

2023 African Accounting and Finance Association (AAFA) conference in Accra, Ghana. At a country level, Frank has executed several policy-relevant research projects with Makerere University Research and Innovation Fund, MUBS, and the private sector.

Frank attributes his extraordinary academic success to discipline, focus, hard work, determination, setting clear goals and unceasing prayers. He also appreciates MUBS Management and, in a special way, Prof. Stephen K. Nkundabanyanga for identifying him and continuously mentoring him in academia. He is also grateful to his Mother, Mrs Felista Basigirenda, for her support and guidance.

Mr. Frank Kabuye (with green bag) with the then Chancellor Prof. Mondo Kagonyera and Top Management at Makerere University and MUBS as well as his parents after receiving an Award of Appreciation for his excellent performance in January 2014

Mr. Luke Sewante
Assistant Lecturer
Department of Leadership and
Governance

One-one with the 65th Best Overall in Humanities Mr. Luke Sewante

Which year did you graduate, discipline and cumulative point?

I was admitted to MUBS in 2011 on the programme of Bachelor of Leadership and Governance of Makerere University. I graduated in January 2015 in the same discipline with a Cumulative Grade Point Average (CGPA) of 4.81.

What was the experience after learning of the overall success in academics?

I will always live to remember that moment which I regard as the most unforgettable in my life. The amount of joy that I experienced is indescribable when I learnt about being the Overall Best Student during the 65th graduation ceremony in 2015 at Makerere University. In fact I take this as a turning point in life and my academic career. I did not see it coming but the Almighty God whom I serve made it possible.

What achievements have come with this success?

Well, the list of achievements that have come with this success are endless, but these outweigh others. To start with is the job opportunity I got, in the same year (April, 2015) of graduation. I was appointed as a Graduate Assistant at MUBS in the Department of Leadership and Governance and now am an Assistant Lecturer in the same department. This was a great opportunity to me as a fresh graduate then because I have great passion in academics. In 2016 I managed to enroll for

PGD in Business Education at MUBS where I graduated in 2017 and this has sharpened my teaching abilities. In 2016 I was also given a scholarship by MUBS to undertake my second degree of Master of Science in Leadership and Governance of which I graduated in the recently held 69th graduation ceremony in January 2019. I have attended many conferences like, the Annual International Leadership Conferences, and these have enabled me interact with different people of different professions.

Mr. Luke Sewante (centre) with Top Management at Makerere University and MUBS as well as his parents after receiving an Award of Appreciation for his excellent performance in January 2015

Message to the current overall student

In a special way, I take this opportunity to congratulate you upon your success in academics. Merging the Overall Best Student is not something to joke with, therefore, I thank you for being a good student who values education. You have made your lecturers and parents proud and you have kept MUBS on top. Now that you have acquired better grades of (CGPA 4.84), this comes as an opportunity and something that will always challenge you. As an opportunity, your better grades are going to earn you respect and trust from the potential employers, and to be recommended for greener pastures because good grades will always act as your marketing tool. In the way

as an Overall Best Student, you need to keep determined and focused in order to maintain your excellent performance at the work place and in all spheres of life to avoid being challenged. I once again congratulate you.

Message to continuing students

Studying at MUBS is a very crucial step towards having a brighter future as you to aspire to attain a given profession in your academic career. Now that you are adults who have tasted University life, I urge you to take your studies very important and a priority in all your endeavors during your time at MUBS. As continuing students, it is wise to utilize your precious time in productive activities besides academics, like involving in student

Utilize the Skills and Knowledge Gained

Mr. Luke Sewante taking the 'Walk of Fame' during the 65th MAK Congregation in January 2015

leadership, co-curricular activities, doing simple businesses to help you improve and acquire additional skills. Interactions through creating good friends also adds value, so we should not neglect it. As unique students of MUBS, you should have role models in life in order to keep inspired on what you aspire to get/do. As a live example, when I had just joined MUBS and in 2015, I felt inspired by a fellow friend from the same district then (Kibaale), Mr. Frank Kabuye. Mr. Kabuye is now an Academic Staff in the Department of

Auditing and Taxation. He was the Overall Best Student at the 64th graduation ceremony in 2014. This kept me inspired to emerge as the best student at the 65th graduation ceremony 2015. Therefore I truly agree that *"Education is the premise of progress, in every society, in every family"*, as suggested by Kofi Annan.

Message to those that have graduated.

With pleasure I am delighted to congratulate you upon reaching such a milestone in your academic careers. It is important that you always express gratitude to your parents/guardians and your lecturers/teachers who have contributed to this success in different ways. My advice to you as fresh graduates is, you should utilize the skills and knowledge gained from the University as your starting capital. You should not sit home to wait for jobs instead create new one. MUBS is known for nurturing students with good discipline and this can be exhibited by yourselves while at your place of work and in your societies. I also call upon you to keep humble and respect your employer's work instructions in order avoid indulging in any malpractices that can distort your careers and the image of MUBS.

A Word from the 66th Best Overall in Humanities Mr. Rashid Taban

I graduated with a Bachelor in Business Administration (Accounting option) in 2016 with a CGPA of 4.91 and emerged the Best Overall Student in Humanities. Before that I studied a Diploma in Business Administration at MUBS in 2009/2011. The performance I had at bachelors level opened the opportunity for me to join MUBS as a Teaching Assistant. Further I graduated with a Master's degree in Energy Economics and Governance (still at MUBS) in 2022. All these achievements have come with hard work, resilience to challenges faced at school especially having to pay for myself from Diploma until my recently completed studies.

My message to continuing students

I congratulate you upon being part of this great institution (MUBS). Now that you are at campus, balance your time between Academics and other activities. Do not involve yourselves in what cannot progress you academically. Many students get into other leisure activities when they come

to campus and forget academics. Therefore attend your lectures regularly, revise your books, discuss with others and prepare for course works and examinations on time. Success does not come easily, you have to work for it. I challenge you to work towards your academic goals, you can always achieve it. And among all, always aim higher in academics and life.

Message to those who have graduated

I congratulate all those graduating for the milestone achieved. MUBS imparts practical knowledge that students can apply to employ themselves and easily fit into the employment world. Dear graduates do not remain idle, use the knowledge you have acquired to create a job for yourself and others and transform the society. If you are employed, be ethical and hardworking the way MUBS trains students. Encourage others to join MUBS by being useful to the society.

Mr. Rashid Taban
Assistant Lecturer
MUBS Arua Campus

MUBS TV; A Pioneering Student-Led Innovation

Transforming with you

In the constantly changing field of education, students are frequently at the vanguard of innovation, using their own viewpoints to realize ground-breaking concepts. One such remarkable initiative is MUBS Students' TV, a brainchild of Bbosa Shafic, the outgoing President of the Students Information and Computing Association (SICA) at Makerere University Business School (MUBS). Graduating today with a Bachelor's degree in Business Computing, Shafic's journey at MUBS has been a testament to the power of student-driven innovation. In this article, we will delve into the fascinating story of MUBS TV and how it emerged as a beacon of creativity and collaboration in the heart of Uganda's academic world.

The Genesis of MUBS Students' TV
MUBS TV is an innovative project initiated in February 2023 by Bbosa Shafic President of the Students

Information and Computing Association 2022-2023, which realized the need to have a platform bridging the gap of communication among students, staff, stakeholders and the public at Makerere University Business School, by supporting high-quality engaging content and services created, developed, executed by diverse talent at all levels and capacities, and delivered across multiple platforms. This television channel (currently running on Youtube), under the auspices of Makerere University Business School (MUBS), seeks to achieve several objectives.

Mission Statement

Our mission is to provide a dynamic and inclusive media platform, dedicated to educational enrichment, community engagement, and student development. We strive to transform with our viewers by delivering content that informs, inspires, and empowers.

**Mr. Shafic
Bbosa
Lead Inventor**

MUBS Students' TV Team

Overarching Strategy Objective

To become a catalyst for good change, information exchange, and innovation in education and community engagement for the benefit of people, the MUBS community, and society at large.

MUBS TV is more than just a channel, it's evidence of the students' extraordinary potential and aspirations. This concept was developed as a pioneer in the making with

“The programme, which began with the goal of educating, entertaining, and interacting with the MUBS community, has evolved into a venue for showcasing the exceptional ability, originality, and resourcefulness of the student body.”

SICA in association with support from the Faculty of Computing and Informatics, the e-learning Centre and the ICT Centre. The programme, which began with the goal of educating, entertaining, and interacting with the MUBS community, has evolved into a venue for showcasing the exceptional ability, originality, and resourcefulness of the student body.

Entrepreneurship, Innovation and Incubation Centre

The MUBS Entrepreneurship, Innovation and Incubation Centre was established in 1998 as an outreach unit to link the school with the private, public and NGO sectors using different approaches.

At the establishment, it was known as the Small Business Development Centre that supported businesses through training and business clinics. It grew over time and in 2005 it became the Entrepreneurship Centre supporting not just small business development but the growth of entrepreneurship. About four years ago, the African Development Bank supported the establishment of incubation Centres at public universities in Uganda and MUBS Entrepreneurship Centre was transformed into the Entrepreneurship, Innovation and Incubation Center. Its five

*Dr. Diana Ntamu
Director*

focus areas include business incubation, training, provision and dissemination of information, research and consultancy.

The Centre believes that individuals have unique ideas and need support to turn them into businesses. These individuals are guided through training, participate

in enterprise challenges and then assigned mentors and coaches to develop the business ideas.

The Centre has partnered with numerous organizations and one of them is Stanbic Bank under the Stanbic Bank Business Incubator to provide training to different entrepreneurs. Other organizations that the Centre has partnered with include; NSSF, DFCU Bank, Orient Bank, Private Sector Foundation, MasterCard Foundation, Innovation Hub, MTN among others.

E-Learning Centre

*Ms. Shakirah Nagujja
Manager*

The E-Learning Centre started as a project in 2013 and was formalized as a Centre in 2016. The intention was to provide effective integration of appropriate technologies and services to strengthen and enhance the teaching and learning missions of the school, on campus, between campuses and online.

Knowledge for Development Centre

Knowledge is an essential resource and an indispensable prerequisite for the development of societies all over the world. The MUBS Knowledge for Development Centre is established to advance, create, drive and implement the Agenda Knowledge for Development for better knowledge sharing and collaboration that will achieve happy knowledge citizens, knowledge driven competitive organisations and advance Ugandan knowledge partnership for Development.

In line with the vision of MUBS "The benchmark for Business and

*Dr. Annet K.
Nabatanzi Muyimba
Director*

Management Education, Research and Training in the Region", The Centre advances knowledge polices and strategies for different sectors, undertakes and strengthen education, trans-disciplinary research and innovation in the field of knowledge for development, promote professional knowledge

management in organisations and in multi-stakeholder partnerships and improving competences and capabilities in knowledge management through conferences, different training programs, webinars, partner engagements, and other events.

Information and Communication Technology (Ict) Centre

*Mr. Charles Olupot
Director*

The ICT Centre is an outreach centre consisting of a consortium of local and international consultants, trainers, researchers, practitioners and Academicians collaborating to promote ICT as a solution to individual and institutional development challenges in Uganda and the region. A full profile of the MUBS ICT Centre Services can be found at <http://ictcentre.mubs.ac.ug>.

Disability Resource and Learning Centre

*Ms. Gorreti Byomire
Director*

The Disability Resource and Learning Centre (DRLC) is a MUBS outreach Centre that provides Leadership for creating a proactive culture of disability awareness, facilitating the removal of barriers and creation of an accessible and inclusive environment for students and staff with disabilities. This improves on the implementation of the UN Convention on the Rights of Persons with Disabilities (UNCRPD) and the Sustainable Development Goals (SDGs). The DRLC also offers consultation and research on a broad range of disability issues, employability and entrepreneurship among others and is a one stop point for disability information in Uganda.

Career Guidance and Skills Development Centre

*Ms. Maureen Tweyongyere
Director*

The MUBS Career & Skills Development Centre was established in 2004 to offer Career Support Services to MUBS Prospective students, continuing students, staff and the external community. The Centre enables students envision their Career through Career awareness programmes.

This is an outreach Unit that exposes students to a wide range of available and future professions, it equips students with employability skills and enable them to know the career prospects of MUBS programmes.

The Centre also has a guest lecture scheme that features high profile individuals from different professions in the business world. This is intended to enable students take an informed decision on the area of specialization.

MUBS Leadership Centre

The MUBS Leadership Centre is an outreach Centre of MUBS that supports to develop leaders with best leadership and governance practices. The Centre conducts research on leadership and governance, organizes and conducts trainings, seminars and conferences and mentors young people on leadership skills and Management.

The Leadership Centre is located at MUBS Annex, Faraday Road Bugolobi.

*Ms. Regis Namuddu
Director*

MUBS Economic Forum

*Dr. Fred Muhumuza
Director*

Makerere University Business School (MUBS) established MUBS Economic Forum (MEF) in 2011 to provide leadership in provision of knowledge and information for capacity building and effective integration of Economics in decision making and practice. The aim is to improve welfare of citizens and households as well as socioeconomic transformation in Uganda, the region and beyond.

The MEF, exists as a semi autonomous unit within the Department of Economics and Energy with a core goal to support the realization of the MUBS

Mission by creating and providing information that will empower her clients to effectively manage the present and build a secure future.

MUBS Energy Research Centre

The MUBS Energy Research Centre is a multi-disciplinary Energy Research Centre, housed in the Faculty of Economics, Energy and Management Science of MUBS. The Centre conducts high quality, targeted and relevant research as well as offering post graduate programmes at the masters and PhD levels.

*Prof. Muhammad Ngoma
Director*

Excelling at Leadership and Academics

Being a Guild President comes with unseen challenges and yet as a student you have to excel academically since it is your first priority but still you have to serve your constituency not forgetting that you are the bridge between students and the University Management. We had a chat with the immediate past MUBS Guild President H.E. Bruno Kamoga, the 25th MUBS Guild President 2022/2023 and this is what he had to say.

As Bruno Kamoga (not as the Guild President), what is your take about having MUBS as your choice to attain your higher education?

Regret is something I can not think about after choosing MUBS all over my PUJAB when I was in my form six vacation. Joining MUBS at the age of 21 years after some hindrances of covid-19 was the best moment I have ever experienced in my education life. I had an opportunity to join on a Government Sponsorship Scheme after attaining 20 points at form six. I was able to pursue Business Computing that I filled as my first choice.

How has life as a hustling student been and what motivated you into leadership?

At the start, of my University life, I had to balance my books together with my Fashion Brand business since I had to collect some money to pay my rent and upkeep, it was not so easy but at least the government allowance also helped

out. The challenge was mostly felt when the second covid-19 lock-down came in. It came in just in the middle of first semester and the hustle had to come in again since I was not ready to go back home to feed on my parents food and sleep under their roof. The lock-down came to pass and once again school resumed in semester two. This is when I saw some students who used to dress in suits, gentles and ties, and

Serving physically & chemically

on asking, I was told that they were the Guild Leadership Council. I picked interest, I joined the Guild campaign of Valentine Ogwang Junior so as to push for him in my Faculty and amongst my friends. Later on as the campaign was on, I also joined the Offcampus GRC race a position that is also voted for by the entire University. In my third year, I stood for Guild President, just like it happened to colleagues who stood against me when I was campaigning for Offcampus, yooooo, I almost remained unopposed. Anyway, at the end of this with huge crowds and support, I was declared the 25th Guild President of MUBS.

How was it as a Guild President and what are the moments or things that swept you off?

What a tough time it was, why and how, I thought it was only about serving students as I had acted during Offcampus, with a full office, it was tough because I had to think of 20,000 students including Arua, Mbale, Mbarara and Jinja Regional Campuses,

coupled with addressing students matters at the University Council as for students to get the best. Students once upon a time thought a Guild President has the powers to decide on the tuition paid, hahaha.

So let us in on juggling leadership and academic as H.E Kamoga

Remember, I am serving in this office but I am also a student mandated to do my assignments, course works, attend lectures and also sit for exams, how did I handle? I can not lie but I do not remember attending most lectures, however, I prioritized whenever I would, attend more discussions with friends, used my midnights to pass through notes and summaries. I do not regret missing out on a first class, the knowledge in the duties and engagements with various seniors and members of management has added weight on my scale.

What message to you have for the continuing students?

A message to the continuing students, participate in co-curricular activities only if you can balance the two or more, otherwise, academics is the number one reason for us at University.

A word to MUBS Leadership

I thank the MUBS Council and the entire Management for making my term of office smooth and here I am with a degree of Business Computing. Enabling the future is what MUBS has always embarked on.

FOR GOD AND MY COUNTRY

Our Alumni

Where are they, what are they doing?

In this section, we acknowledge our alumni for their contribution to;

- the school
- the country
- the region

Every contribution creates a difference where ever you are and go.

A big thank you

Mr. Wambete on Pursuing a Masters of Business Administration as an Agriculturalist

Mr. Kokasi Wambete is a distinguished agriculturalist and agribusiness expert with 12 years of agribusiness management experience. He is also the Outgrowers Manager at Kakira Sugar Limited. As Outgrowers Manager Kakira Sugar Limited, he turned the sugarcane sector around within four years. Under his tenure he has developed tripartites with Centenary Bank, Stanbic Bank, Tropical Bank together with GrainPulse Fertilizer Company which directly provides affordable interest agricultural credit and fertilizer inputs to farmers to boost crop yield and productivity. This tripartite has reached 10,000 contracted outgrower farmers dramatically transforming their lives.

Prior to his appointment as Outgrowers Manager, Mr. Wambete served as Centenary Bank's agribusiness advisor from 2010 to 2018 during which time he implemented bold agricultural development policies and pursued agricultural credit solutions to expand the bank's agribusiness portfolio and opportunities for majorly maize, coffee and farmers in the sugarcane value

chain.

He holds a Bachelor of Science degree in Agriculture from Makerere University and Masters of Business Administration from Makerere University Business School. He is currently admitted for PhD in Agricultural Economics at University of Nairobi.

He decided to pursue Masters in Business Administration after his Bsc. Agriculture degree at Makerere University to holistically understand Agriculture from a business context which involves where agricultural products are being grown, developed, consumed, marketed, financed, processed, regulated, researched, taxed, transported and overall management of the value chain, and all the resources.

His passion is to unlock wealth, end poverty and lift millions of Africa's poor into Africa's emerging middle class by transforming farmers' perception to embrace agriculture as a business but not merely a way of life.

Mr. Kokasi Wambete
Master of Business Administration

SP Kyobutungyi's take on pursuing a Masters of Leadership and Governance

I am Superintendent of Police (SP) Kyobutungyi Ruth, and I was pursuing Masters of Leadership and Governance at Makerere University Business School (MUBS).

I heard about this course of Leadership and Governance for the first time in 2021 when the then Principal of MUBS Prof. Waswa Balunywa came to give us a lecture at Police Senior Command and Staff College - Bwebajja in a seminar.

During that time, we received many inspirational and motivational speakers, I interacted with staff from MUBS and they were knowledgeable young ladies, I was so impressed, I picked so much interest because I admired how these young ladies delivered to us.

But still, I had always admired to pursue my next degree from MUBS due to many reasons but mostly, the way MUBS is organized in their academics, no striking, focused, disciplined, it is a cool, quiet environment.

Hence my dream came true.

So I applied to study in the academic year 2021/2022 and I was admitted, you needed to see the joy....! I have benefited a lot within these two years, the lecturers were always available ready to share knowledge with us. I have had a good time with all lectures of the Leadership and Governance class. As I talk, there is this mixed feeling of how I am going to leave them..it is called the mourning stage. When your departing from each other to the world.

I have mostly enjoyed lectures of the then Principal MUBS Prof. Waswa Balunywa, he is so humorous and talks realities, Prof. Vincent Bagire, so passionate about academic and quality education, Mr Tonny Kiggundu Head of Leadership and Governance Department very concerned about what leaders should be and do, Ms. Regis Namuddu always concerned with behaviors of leaders.

I am so grateful to MUBS for having introduced this course

**SP. Ruth
Kyobutungyi
Masters of
Leadership and
Governance**

of Leadership and Governance, my field of work is so sophisticated to the extent that even if your educated to the highest level, you still find a lot of challenges. Anyone to succeed must apply leadership skills, qualities, roles, among others. This course has made it easier for me.

In my first year I realized I have been in command but doing a lot of mistakes, I realized that our subordinates behave by copying from their supervisors or superiors. In past years, I used to get so angry to criticism, I never wanted to hear any negative feedback about me, I only wanted to hear positives and to be near with those with positive vibes only. This course has taught me that leaders actually embrace criticisms mostly with a positive attitude.

I have learnt that leaders do not need to use a lot of energy and force. Using a few words, sticking on

what you say, setting your pace of principles, behaving normal despite the position one holds. I learnt that a good leader does not have to be everywhere or do everything.

I am a very changed person in my field of command, I used to work on too much pressure which will eventually make me do mistakes. This course has challenged me, it is not pressure that works, just being calm, judge the situation and making the right decision. I have learnt to look far than what is at hand, paying attention to details has helped me so much. Of late, I work with easy, and make decisions, contribute and bring in new ideas, this course has changed my mind and the way I used to look at issues.

I feel everyone should acquire knowledge about leadership because everyone is a leader in one way or the other.

Chief Liciencing Officer Winstone Katushabe, AIGP Dr. Steven Kasiima, SP Ruth Kyobutungi, DIGP Maj. Gen Sabiiti Muzeyi, Asst. Commissioner U.R.A Silaji Kanyesigye officiating the launch of the Electronic Penalty System in June 2019

About MUBS Regional Study Campuses

MUBS started Regional Campuses in the country in order to decongest the main campus in Kampala and take university services closer to the people at affordable cost. We are also preparing to absorb the increasing number of secondary school leavers from Universal Secondary Education (USE) to supplement on the prevailing government programs and policies.

Presently, we have Regional Campuses with locations in Jinja, Mbale, Arua and Mbarara. In an effort to improve on literacy level in upcountry areas, the school offers a discount of over 40% on tuition for students studying in MUBS Regional Campuses.

MUBS Mbale Regional Campus

We offer a range of training packages in a range of subject areas and offer blended learning opportunities to best meet your needs. If sitting in a room with a trainer and having the opportunity for discussion with other learners sounds good to you then we can offer this. If you prefer to study in your own time and at your own speed then join one of our world class facilities.

*Mr. Ayub Kutosi
Masaba
Director*

If you prefer to study in your own time and at your own speed then one of our e-learning packages may be right up your street. There is a third option, which is, if you like the sound of both but perhaps can not attend all training sessions, this is when blended learning comes in.

Could it be Formal or Self Employment?

Graduation is everyone's dream both the parent/guardian and the student. Well, now that you have reached this milestone, what is your plan when you leave the Congregation Tent at the Freedom Square and also when the party is done?

By this time you have taken a final decision on the journey you want to take now that you are fully responsible of your future. Could it be Formal Employment or Self Employment? Well, here are a few guides. If you are to take any of these forms of employment.

Sumaia Namuyingo

Formal Employment

Here, your grades helped you acquire the job to some extent but they will not help you keep the job. You must at least possess these and more to be able to survive;

1. *Soft Skills.* You must have soft skills like communication both verbal and written. Learn how to communicate formally without slangs or anything informal. These skills also include

computer literacy, time management, team building and maintaining, minute writing, to mention but a few.

2. *Discipline.* You must be disciplined

because this is what will always lead you into rooms and towards opportunities before you actually present your self.

3. **Respect.** Majority of the youth lack respect. Well, like discipline, respect will also earn you a seat on table you never thought you will be.
4. **Productivity.** With this current technological space, majority reach workplaces and indulge in things they are not paid to do like running their personal social media pages. Without productivity, you are showing no reason to be in that position and at that workplace, so use your time productively.
5. **Ego.** When at a workplace, all those things that make you feel superior from others are only beneficial to you and in the end will destroy you. Your grades, your beauty and others will only damage you and end up losing your job so put all that aside and concentrate on work.
6. **Play smart.** Of late, playing dirty at work is becoming a norm. Well, this is only killing opportunities for you and the organization or company. If someone is doing something better than you or doing something you like, make them your friends, ask and learn from them.

Self Employment

For those into Self Employment, look into these;

1. **Determination.** You have to be determined to walk the journey.
2. **Financial Discipline.** You have to be financially disciplined to be able to run and maintain the business.
3. **Marketing.** You have to be good at marketing if not, hire someone good at marketing or seek help from those that can help you free of charge as you build your business.
4. **Research.** Always look out for new trends in your line of business and also trends on how business is conducted to be competitive.
5. **Technology.** No matter what you do, technology is another pillar of business in this century. So be literate in that field.
6. **Innovation.** You need to be innovative on how to survive and thrive in business this will save your time, money among others.

Well, those and more will help you walk the journey you have decided.

Optimism is the faith that leads to achievement: nothing can be done without hope and confidence"
Helen Keller

Your education is a dress rehearsal for a life that is your to lead"
Nora Ephron

Fight the negativity and stigma of being different; Wasswa Mubarak- MUBS Jinja Campus Former Prime Minister

Hon. Wasswa Mubarak during the Makerere University 73rd Congregation in February 2023

Having eaten a toxic substance during his childhood that affected his genes and subsequently affected his growth, Hon. Wasswa Mubarak has never been let down by that. He has walked through life to be where he is with the help, support and guidance from his family, friends and relatives.

He was the Prime Minister of MUBS Jinja Campus 2020/2021 and MUBS' longest serving

"I would love someone as tall as my twin sister and not overly big. While I do not have a preference for colour, I would love someone who is a good communicator and able to understand me well."

Jinja Campus Prime Minister due to the covid-19 pandemic that sent the country into lock down.

Wasswa was pursuing a Bachelor's degree in Business Administration majoring in Accounting. He is the Co-founder and Marketing Manager of Butumwa Agro-processors.

Below is a snick-pick into his life as he was growing up.

Who is Wasswa Mubarak?

W a s s w a Mubarak is a recent graduate of Makerere University Business School Jinja Campus, Uganda. He was thrust into the public eye after his graduation photos went viral on Twitter, with many people mistaking him for a young child in a graduation gown. The reason for the confusion is Wasswa's condition, which causes him to remain small even as he grows.

Where was he born?

Wasswa was born in Iganga District, Nakibugo sub-county, in a village called Nawanzu. He is the second-born in a family of seven, with four girls and three boys. Wasswa is a twin, making him the second-born of sorts, with his twin sister being the third-born. His parents are Mrs. Nakyanzi Nuubu and Isabirye Abdala. "How old is Wasswa Mubarak?", you may ask! At the time (2023) of writing this article, Wasswa is 27 years old.

Wasswa Mubarak, the co-founder of Butumwa Agro-processors that produces high quality and affordable instant coffee sourced from farmer groups who receive training on proper handling practices to provide a steady supply of quality coffee berries bought at a fair market price. Pitching during the NSSFHiInnovator

Education background

Wasswa began his education in 2004 when he joined the primary school. He sat for his PLE exams in 2010, attending Bright Future School at a different exam center. He then went to Iganga Busagwa College for S1 up to S4. However, he had to sit at home for the entire year of 2014 due to financial issues. He then joined S5 at Iganga Progressive Academy, continuing through to S6. He sat for his UACE exam with a combination of MEG. After completing his A-levels, Wasswa joined Makerere University Business

School (MUBS) in Jinja to pursue a degree in Business Administration with a major in Accounting.

Wasswa Mubarak in a half coat suit with a blue shirt

What was it like when Wasswa joined University?

When Wasswa joined the University, he was like any other student, although some people found him unique due to his height and childlike looks. In his first year, he was appointed as the king fresher, and the President of the freshers. His uniqueness earned him many leadership positions within the University, giving him the courage to opt for bigger roles on Campus. With his resilience and persistence, people started to believe in him one by one, and he eventually became the Guild President at MUBS Jinja, serving for two years until the pandemic hit.

What challenges did he face?

Wasswa faced some challenges as people didn't take him seriously due to his growth rate not being relative to theirs. He was bullied in school, especially in primary, where children would play around with him and

Hon. Wasswa Mubarak with Ms. Faridah Nakazibwe during the period he was hosted at Mwasuze Mutya on NTV

disturb him a lot. The worst part was their insults, and they couldn't take him as their friend, which challenged him and became a massive problem for him. But now he takes it as an advantage because it made him a leader on Campus. That's when he started believing in himself because he was recognized as a person.

Hon. Mubarak living his story

What has Wasswa Mubarak achieved from looking little?

Wasswa also became an actor and was given roles as a stubborn boy in several movies and as a kid, not because he was a child but because he looked like one. He learned to use people's insults to make them feel guilty instead of shouting back. Mubarak's role model is Nigerian actor Itheme Osita, popularly known as Paw Paw from Aki and Paw Paw a classic Nigerian Movie.

Where does he get his resilience?

Wasswa attributes his resilience and positivity to his parents, who encouraged him and made him believe he could be great instead of asking himself questions and crying. The biggest weapon he has is his education, and he thanks his parents for not giving up on him. He also has his self-esteem and positivity, accepting who he is and living his story, not what others call him. He expressed gratitude to his friend Ssenyonga Badru, his boss Kawoya Aloysius, and the MUBS Administration, particularly Dr. Mukyala Veronica, who was like a mother to him at some point. He mentioned that she used to call him to her office

since he was the president, and they would share ideas. He also thanked Prof. Waswa Balunywa, who had mentored him in leadership and entrepreneurship. He added that he is grateful for his dad, whom he loves very much.

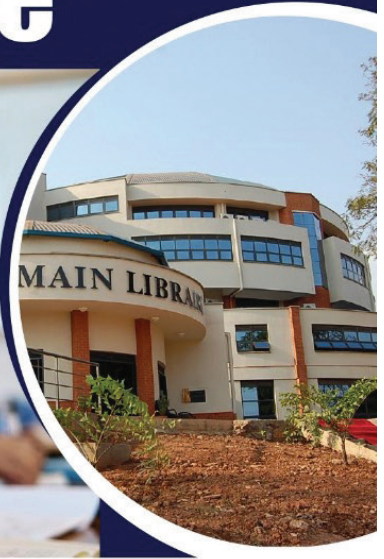

Advice from Wasswa to other disadvantaged people

Wasswa advises everyone to believe in themselves, seek advice, and fight the negativity and stigma of being different. He believes that disability is not inability and that little people like himself can do big things that other people have done. He prays for a bright future and thanks his parents for never leaving him. Wasswa's story is one of perseverance and determination. Despite facing challenges and discrimination, he rose above them and became a leader in his community. His story serves as an inspiration to others to believe in themselves and never give up on their dreams.

MUBS Scholarship Scheme

Student Scholarship Scheme

MUBS operates a number of student scholarship schemes designed to promote learning and education related philanthropy. The MUBS Scholarship schemes aim at supporting academically gifted students and those from less-privileged backgrounds to attain an education and promote academic excellence not only at the School but also in wider community. The MUBS Council approved the operationalization of the following Scholarship Schemes at MUBS.

The MUBS First Class Sponsorship Scheme
Designed to provide sponsorship for further education at the Undergraduate and Postgraduate degree level to Students who attain first class awards at diploma and undergraduate degree level, with the aim of tapping into its excellent students for academic development. The scholarship is extended for two (2) students and one (1) student per programme at the Masters and Undergraduate levels respectively.

ADBHEST Merit Based student scholarship

The School since 2014/2015 academic year has been handling the ADBHEST Merit Based student scholarship with the objective of educating the disadvantaged, especially those that are from rural schools, who had performed well and qualified for university education. Beneficiaries are expected to be outstanding students in intellect, character, leadership, and commitment to service and can demonstrate commitment to return to work in the districts during vacation and after graduation.

East African Anthem

Chorus

Jumuiya Yetu sote tulinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu.

1. Ee Mungu twakuomba ulinde
Jumuiya Africa Mashariki
Tuwezeshe kuishi kwa amani
Tutimize na malengo yetu

2. Uzalendo pia mshikamano
Viwe msingi wa Umoja wetu
Natulinde Uhuru na Amani
Mila zetu na desturi zetu.

3. Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tuijenge Jumuiya bora

Ugandan Anthem

Oh Uganda!
May God uphold thee,
We lay our future in thy hand.
United, free,
For liberty
Together we'll always stand.

Oh Uganda! the land of freedom.
Our love and labour we give,
And with neighbours all
At our country's call
In peace and friendship we'll live.

Oh Uganda! the land that feeds us
By sun and fertile soil grown.
For our own dear land,
We'll always stand:
The Pearl of Africa's Crown.

Makerere University Anthem

Chorus

Makerere, Makerere, We build for the
future, The Great Makerere
Great, Great and Mighty, The walls
around thee
Great, Great and Mighty,
The gates beside thee X4

From East and West, From North and
South

All voices singing, Arise Makerere
Rise up and rise, High up and high
All voices singing

Arise Makerere

Do not forget, Through all the years
Those who have gone through the gates of
Makerere

Give them the pride, Give them the joy
Oh! To remember, The gates of Makerere

Those who here be, Seek ye the truth
Build for the future, The great Makerere
Those here have been, Those here will be
Build for the future,
The Great Makerere
