

## About the Programme

The Higher Education Certificate One Year Programme that enables you join any Business Degree Programme.

The Higher Education Certificate in Business Studies is intended for the following categories:

**UACE Holders:** The HECBS is intended for holders of the Uganda Advanced Certificate of Education or equivalent qualifications but who may not have attained sufficient grades to enroll for Diplomas or Degree programmes in Uganda.

**Foreign Qualification:** The HECBS can also serve as a foundation programme for students whose foreign secondary school qualifications are not considered equivalent to UACE but permit admission into Higher Education in the foreign country.

**Linkage between the vocational Qualifications and the Higher Education Qualifications.** Although an enrolled Nursing Certificate is equivalent to the Uganda Advanced Certificate of Education, holders of the former can only join degree programme after two and a half years of an intermediate diploma in addition to years of experience while holders of UACE can enroll for degree programmes right away.

The HECBS programme has been designed to enable holders of vocational certificates join university diploma and degree programmes.

### **Bridging between Arts/science Divide:**

This HECBS orients Arts and / or Science students for purposes of admission into business undergraduate programmes.
